Ari Cloud Carousel ini file

Posted by sachinari - 2012/09/18 12:38

_____

Hello Folks
May I please have the instructions to create the .ini file for the amazing Aricloud carousel please?
I have added the file to the appropriate folder but the links and titles, descriptions are still not showing up. Any help would be greatly appreciated.
regards
Sachin

_____

Hello,

Provide a link to a page where we can see the carousel and link to INI file.

Regards,
ARI Soft

_____

Hello :)
http://n4tinc.com//images/ariopps/aricloudcarousel.ini

images are in ariopps folder

_____

Only one , and section can be in INI file. Enter only image file name without folder and sub-folder. In your case INI should look like:

200px-seal_of_the_us_air_force_svg.png="US Air Force"

nav_03.jpg="United States Air Force"

nav_03.jpg="http://www.google.com"

and images should be located in /images/ariopps folder.

Regards,
ARI Soft

_____

Just a quick question. Do I neeed a separate ini file per image?
sorry.. still a bit confused

_____

All images from folder where INI file file is located should be in one INI file.

Regards,
ARI Soft

_____

Hello,

I need to add more title in aricloudcarousel.ini.

But no updates in my site.

Please help me....:)

biosphere.jpg="Biosphere"

biosphere.jpg="This is biosphere Theme"

biosphere.jpg="http://www.gradientpixels.com/professional-wordpress-themes/19-emotive"

_____

Hi...
nowhere I did not understand if is in a case where are images in subfolders ...for example:
/images/daughter

is needed put into *ini ?

images/daughter/01.png="http://www.google.com"

or

daughter/01.png="http://www.google.com"

or

01.png="http://www.google.com"

_____

Hello,

INI file should be located in folder with images. Each folder (sub-folder) should have separate INI file. Place only image name without folder and sub-folder in INI file. Link to the sample INI file can be found in "Description" section on module settings page.

Regards,
ARI Soft

_____

thank you for answer...

now I have *.ini file directly in subfolder and only with name of the images

daughter01.png="x"

daughter01.png="x"

daughter01.png="http://www.google.com"

in module settings "Slides parameters"
Description file : /images/daughter/aricloudcarousel.ini
Scan subfolders: yes
Image path: /images/daughter

but still does not work link to address from an image

Re:Ari Cloud Carousel ini file

Posted by admin - 2013/02/04 09:51
_____

Set "Image path" parameter to images/daughter value and "Description file" parameter to aricloudcarousel.ini value.

Regards,
ARI Soft
