
Image title and description below the carousel

Posted by jaguarxxl - 2013/03/17 16:36

First of all thanks for this great module :-)

I need to change the position of the picture title and description. I want to have it below the carousel.

Can you help please?

Hello!

How did you get the change made?

Hello,

For example you can add the following code to "CSS Styles" parameter in module settings:

```
{ $id }_wrapper .ari-cloud-carousel-caption
{
  top: 98%;
}
```

Regards,
ARI Soft
