## Image Links doesn\'t work Posted by francescjp - 2013/05/16 12:30

Hello everybody:

I have carrousel working . When I mouse over the image a tooltip shows me the link adress of image. But when I click image, a blank javascript window is shown. I think would appear a new window to image link location. Anyone knows why this happens?

Thanks in advance.

Francesc

Hello,

Where we can see the problem?
