
Heigth

Posted by Dimrix - 2013/09/11 16:40

Have a problem caurusel take very heigth: <http://www.ari-soft.com/images/fbfiles/images/big.jpg><http://clip2net.com/s/5Jyko6> and use the free space. I don't use Title or description bat this space reserved :unsure:
P.S. you forum cant full see on the netbook where 10" display - messages cating from left

Re:Heigth

Posted by xoco - 2013/09/12 01:10

I have the same problem, but I don't understand the solution in the post. I tried to move Height and Y radius, but I can't erase the white space!
How can I do?

=====

Re:Heigth

Posted by admin - 2013/09/12 09:44

As we wrote previously, increase value of "Y radius" parameter.

Hi,
Thanks for the response.
When I increase Y radius, It might fill the whitespace, but it doesn't fit anymore on the bottom.
The thing is when I try decreasing the height, in spite of quitting the upper useless space, it quit bottom space, and cut the carousel.
So I don't know how to do it.
How can I do?

Set also "Y pos" parameter to 166 value.
