Troubles of loading module
Posted by ZAJDAN - 2013/11/12 15:22
_____

Hello,
I am loading a few the modules into one article
each module is covered inside tab...for example:

{tab 1 | alias:1}
{loadposition deckel}

{tab 2 | alias:2}
{loadposition sockel}

{tab 3 | alias:3}
{loadposition door}

and sometime some of them module is not loaded (in browser)...when I make a refresh of the page the lost module is loaded...sometime it needs refresh 3x times
what can do the problem?

thank You
Regards ZAJDAN

Hello,

Where we can see the problem? It can be a problem with tab extension.

Regards,
ARI Soft

_____

please I do not want to show the link public:
if you can hide the link somehow...thank You

_____

We see it only in Google Chrome when select address bar and click "Enter". In other cases we can't reproduce it.
