Percentage size of module Posted by ZAJDAN - 2013/11/19 15:06
Hello, is possible somehow set Percentage size of module?
Re:Percentage size of module Posted by admin - 2013/11/19 16:01
Hello,
It is possible to use value in percent for "Width" parameter. It will be calculated to absolute value on page load.
Regards, ARI Soft
Re:Percentage size of module Posted by ZAJDAN - 2013/11/20 11:16 thank You for the info and when the parameter width will be set in percents it will automatically reduce size of images which are contained in the module? ===================================
Re:Percentage size of module Posted by admin - 2013/11/20 11:17
No, it changes width of carousel.
