
Title, description and links not working

Posted by jonappleton - 2014/03/27 13:11

Hi,

I am unable to get the carousel to display the title or description or to link the images.

My ini file (attached) is in the same folder as the images (images/ImageRotator).

Screenshots of my settings are also attached.

regards

Hello,

Send a link to a page where we can see the carousel.

Your INI file has an incorrect format. You use "œ" instead of " " symbol.
