
Linking Carousel to Picasa Photos Google

Posted by gavinuk123 - 2014/04/29 20:04

I use Ari-Carousel to show some photos held on the server, and it works really well. However I now have many more photos that have been uploaded to Google.

I am currently linking Ozio Gallery a slideshow with photo's on Google but I want to use Ari-Carousel. Obviously I would have to limit the number of photos in a Carousel I would set up.

The site is <http://www.flyingpigfestival.co.uk>

and the photos I want to use Ari-Carousel are in

<http://www.flyingpigfestival.co.uk/main/index.php/fpf-2013-photo-album>

Is it possible to link Ari Carousel to use the photos on Google in the same way ?

Thanks

Hello,

The module can show images only from folder(s) on your server into the carousel.

Yes, thank you, but the Google Photos are on the Google remote server

<https://plus.google.com/photos/112505647492518824525/albums/5871620611548096721?authkey=CN6rnPj3suKuEw>

Is it possible to connect to a remote server.

Regards
