
Color for header and description

Posted by missel - 2014/05/26 23:07

Hello,

First thank for you beautifull Carousel 3D.

I am trying to change the color for Header and description text.

I rode the forum and applied in section "Styles parameters" in field "CSS Styles" the following:

DIV.ari-cloud-carousel-header

```
{
font-size: 50px;
color: white;
font-family: Tahoma;
}
```

{\$id}_wrapper .ari-cloud-carousel-caption

```
{
top: 98%;
}
```

It's working for size and position of description for image

but

It's not working for color :(

Thank in advance for your help.

Michel

Hello,

Send a link to a page where we can see the problem.

Regards,
ARI Soft

Hello,

Here is the link <http://www.jokerlog.fr/>
Go to RÃ©fÃ©rences to see the carousel

Thks

This conflict with site template styles. Use the following CSS rule:

```
.vg-color-2 DIV.ari-cloud-carousel-header,
.vg-color-2 DIV.ari-cloud-carousel-caption DIV {
```

```
color: #FFF;  
}
```

Regards,
ARI Soft

Hello,

May be you have the fix for that. But If you have no time, don't worry !!! I'll ask where I bought the template.

When we scroll up page the carousel goes over the menu instead to pass under.

Again thank.

Have a good day
