
carousel without stops

Posted by Aschi - 2014/12/12 09:15

Hi

Is there a way, that the carousel keeps going, that there are no stops?

www.volkstanzzuerich.ch/

Thanks for your help and best regards

Hello,

Set "Stop auto-rotate on mouse action" parameter to "No".

Hello

Thanks for your answer, but it is not what I meant.

The carousel turns from position to position, is it possible, that there are no stops at all.

Thanks and best regards

Possible solution is decreasing value of "Auto rotate delay" parameter. For example set it to 500.
