ARI Cloud Carousel not showing images and disables
Posted by tecnosystempanama - 2016/05/19 22:29

_____

Hi,

The ARI Cloud Carousel is not showing the images that i uploaded and disables the top menu

This is the webpage where is supose to appear the carrousel

http://try.tecnosystempanama.com/

And in this other page is the top menu that is suppose that the carrousel disables in the home page

http://www.tecnosystempanama.com/camaras-de-vigilancia

This is the content of the .ini file

ini.jpg

In the attachment are the current config

_____

Hello,

Set "Include jQuery" parameter to "No".

Regards,
ARI Soft

Hi,
Thank you for your help, the module is loading, but the images are not showing
The ini file is in this post!
What am i doing wrong? http://www.ari-soft.com/images/fbfiles/images/ini-0382bed71871e8c302299473b3f4f5f8.JPG

_____

Hello,

Specify path to images (or to folder(s) with images) in "Image path" parameter in module settings. If want to show all images from /images folder then populate the parameter with images value. If want to show only specific images, populate parameter with the following value:

images/camarasdevigilancia.jpg
images/alarmacontrarobo.jpg

INI file is used to specify titles and descriptions. It should be located in folder with images and will look like:

camarasdevigilancia.jpg="Title 1"
alarmacontrarobo.jpg="Title 2"

camarasdevigilancia.jpg="Description 1"
alarmacontrarobo.jpg="Description 2"

Regards,
ARI Soft

_____

Hi,

Thank so much for your soon reply, the paths works great for the images, but is not showing the description or the titles of the ini file.

try.tecnosystempanama.com

Ini file.

_____

Check that parse_ini_file PHP function is enabled on your hosting.

Regards,
ARI Soft
