
Problem with ini file

Posted by starone0101 - 2016/07/20 06:03

Hi guys

i want to add links and description for images.

i set a directory to image path (images/slides) and i can see the pictures.

after that i copied ini file in images/slides but it doesn't work. please guide me.

```
avarez.jpg="11"
```

```
avarez.jpg="This is a bread"
```

```
avarez.jpg="http://www.google.com"
```

```
avarez.jpg="http://www.yahoo.com"
```

thank you

=====

Hello,

Could you provide a link to a page where we can see the problem?

PS: Remove one record for avarez.jpg in section.

Regards,
ARI Soft

Hello

thank you for reply.

now:

```
avarez.jpg="11"
```

```
avarez.jpg="This is a bread"
```

```
avarez.jpg="http://www.google.com"
```

still link and description doesn't work.

please see screenshots:

Check that `parse_ini_file` PHP function is not disabled on your hosting.

Regards,
ARI Soft

Re:Problem with ini file

yes it is disable...

Re:Problem with ini file

Posted by admin - 2016/07/20 11:58

It is used by the extension to get data from INI file where titles and descriptions are defined.

ARI Cloud Carousel Pro can get data from INI file even if `parse_ini_file` function is disabled.

Regards,
ARI Soft
