Automatic Title Changing

Hi there,

this is my first post in this forum (and as I found the first one overall :)). I'd like to say that I found the Cloud Carousel to be a fantastic module and I am still enjoying the looks of it :)

Anyhow, to make it perfect for my needs, I would like to know if it is possible to make the titles and descriptions change automatically, together with the pictures, when hitting the arrows and not only whith the mouse-over effect.

Thanks in advance for any hints!
