
Title and description are not displayed

Posted by achille - 2010/08/03 13:14

Hello,

All is in the subject field.

For the rest the module works perfectly (I can see the images and play with both left and right buttons)

See below the content of aricloudcarousel.ini which has been correctly uploaded:

```
aaa.jpg=test  
bbb.jpg=test  
ccc.jpg=test
```

```
aaa.jpg=test  
bbb.jpg=test  
ccc.jpg=test
```

```
aaa.jpg=test  
bbb.jpg=test  
ccc.jpg=test
```

My Joomla version : 1.5.14

Thanks in advance

Achille

Thanks for your reply.

I've just created a link to the module (TEST)
Thanks again

It seems you have placed aricloudcarousel.ini file in incorrect folder. It should be placed in the following folder:

/images/stories/carousel_fp/aricloudcarousel.ini

I've missed this information.

Write somewhere ?

Anyway, thanks a lot for your accurate and quick reply !

You are welcome. Information about INI file can be found on module settings page in 'How to use' section in 'Description' field. It contains the following text:

"For this place INI file with name from 'Description file' parameter to necessary folder with images"

Title and descriptions are not shown for 0001.JPG - 0008.JPG because they have .JPG extension, not .jpg. Correct it in INI file and title and descriptions appear for these images too.

Hello,
I have a similar problem. I would like to insert description and title to my carousel, but I do not understand how to create the INI-file.
The text would be:

denmark.jpg=Denmark0

denmark.jpg=Denmark1

denmark.jpg=Denmark0

But where to write/add this text? With which programme can I create an INI-file?
Best,
Philipp

Hello,

You can create INI file in any text editor.

I have now written the INI file in Editor, saved it and uploaded it to the same folder than the carousel images. But no title and description is shown. I do not really understand "link". What am I supposed to write there? ARI mentions: " is image title". Does it mean in my case "Denmark0". Or do I have to indicate the URL of the webpage where the carousel is displayed?
felipe3664

INI file:

denmark.jpg=Denmark0

denmark.jpg=Denmark1

denmark.jpg=Denmark0

Where INI file is located? /images/flagsAtlasProject/aricloudcarousel.ini file doesn't exist.

Hello,

I have the same problem, Title and Description are not showing BUT links works...

I think my ini file is well done and well placed (in the image folder), the name of the image is well writed

Here is my ini file :

YR-01.png="Framboise"
YR-02.png="Vanille"
YR-03.png="Pêche Jaune"
YR-04.png="Mûre Sauvage"
YR-05.png="Fraise"
YR-06.png="Noix de Coco"
YR-07.png="Abricot"

YR-01.png="Framboise"

YR-02.png="Vanille"
YR-03.png="Pêche Jaune"
YR-04.png="Mure Sauvage"
YR-05.png="Fraise"
YR-06.png="Noix de Coco"
YR-07.png="Abricot"

YR-01.png="http://www.google.be"
YR-02.png="http://www.google.be"
YR-03.png="http://www.google.be"
YR-04.png="http://www.google.be"
YR-05.png="http://www.google.be"
YR-06.png="http://www.google.be"
YR-07.png="http://www.google.be"

The links to google works on each image, the navigation buttons appears and works but no title, no description...

It seems module template file was modified. Could you send /modules/mod_aricloudcarousel/tmpl/default.php file by email or provide temporary access to your J! backend by email that we can investigate the problem?

ARI Soft

This it not original file. Download the extension from our site and update the module or copy original default.php file from extension's archive.
