Change Caption format

Posted by telmagz - 2010/09/15 22:48

_____

Hi again!

I'm still thrilled with this wonder, but I'm missing the following: I'm using the Lightbox from joomla and really would love to show the title/description when the box opens with the picture. Would that be possible?

I'm also trying to change the format of this both caption items. For the tile I did;

```
.ari-cloud-carousel-caption .ari-cloud-carousel-title {
 font-weight: bold;
 font-size:18px; /* added */
 color:#ffcc00; /* added */
}
```

Now I would really like to change the description format as well, but can't find where. Can you help me?

Thanks in advance,
Telma

_____

Hello,

'Core Joomla! lightbox' doesn't provide ability to show title or description. This isn't the module limitation, this is limitation of 'Core Joomla! lightbox'. All other lightbox which are supported by the module can display title. About description styles, use the following CSS rule:

```
.ari-cloud-carousel-caption .ari-cloud-carousel-alt {
 font-weight: bold;
 font-size:18px; /* added */
 color:#ffcc00; /* added */
}
```

Regards,
ARI Soft
