
Images clumped together during first time loading

Posted by jasonhtc - 2010/10/11 05:52

Hi, this is one of the best extension that I have come across. The Cloud Carousel works fine but there is a minor error (images clumped together) during the first time loading of the page with this mod. Is there a fix or setting that I can change? <http://www.ari-soft.com/images/fbfiles/images/error-449cbb092b06b02fa15fc2b75be01245.jpg>

Hello,

Thank you for the report. We'll add loading image which will be shown until all carousel images are loaded in the next version of the module. We'll try to release new version today.

Regards,
ARI Soft
