
Add a footer to carousel for acknowledgements

Posted by HarryWales - 2010/10/25 10:34

Hi,

Is it possible to add a small text footer just beneath the carousel to acknowledge the photographer/s ?

Hello,

Download and upgrade the module. New version provides possibility to define header and footer text.

Regards,
ARI Soft

Will doing this lose any of my settings or custom CSS?

Not, just install new version over installed version. For this don't touch installed version, open Joomla! installation page and install new version of the module.
