
Not Showing Description and Title in lightbox

Posted by pymesign - 2010/10/27 13:49

Hi,

IÒ've just installed the module and place the ini file inside the image folder, but the description and title of the image not showing in lightbox:

[Link to problem](#)

Thanks in advance

Hello,

It's limitation of Joomla! lightbox, it can't display title or description. Use another lightbox extension if you want to display title in lightbox.

Regards,
ARI Soft
