Can\'t get Lightbox effect to happen

Posted by Quimbly - 2010/11/22 07:57

_____

Regardless of the configuration settings, I can't get a Lightbox to pop up when clicking on an image.

I tried the Core Joomla Lightbox -- nothing
I installed Ninja Shadowbox, and set this module to use it -- nothing

The image always redirects _self page to the image by itself -- no Lightbox!

What am I missing?

_____

Hello,

Could you provide link to page where we can see this issue and if it is possible access to your Joomla! backend by email that we can investigate this problem?

Regards,
ARI Soft
