I found a bug in the ARI carousel

view this site in Internet Explorer for the problem: <http://www.glamorous-fashion.nl>

Can you make a fix for IE7? I already tried using the css and adjustable variables of the admin screen. This only replaces the carousel. some sort of javascript error?

Hello,

Add the following CSS rule to "CSS Styles" parameter in module settings:

```
.ari-cloud-carousel DIV
{
  left: 0;
}
```

Regards,
ARI Soft
