Thumbs problem Posted by moraldi - 2011/07/04 17:14
Hi, Although works in localhost like a charm, in a real website, the ARI Slick Gallery is not displaying the thumbs correct when the 'Use thumbnails' is set to 'yes'. It displays only a polaroid transparent frame.
(Joomla! release 1.6)
Thanks in advance http://www.ari-soft.com/images/fbfiles/images/Ari.jpg
