## It appears to me the description or title

Posted by isela19 - 2011/11/10 19:15

---

I like this demo gallery <http://www.demo2.ari-soft.com/joomla-image-gallery.html> download and install the module Slick ARI Gallery and I have it in the configuration Lightbox Joomla Core file and arislickgallery . ini

isla.jpg = "Islas de la Bahia"

isla.jpg = "tourist zone of Honduras"

but I get the title or the description, I do not appear next and previous options when it clicks on an image. I could tell that I make you look at the photo gallery the same as the demo. Thanks!

Hello,

"Core Joomla! lightbox" doesn't support navigation between items. This feature is supported by ARI Sexy Lightbox, ARI Fancybox, ARI Pretty Photo and ARI Colorbox extensions.

Regards,  
ARI Soft

It is possible to integrate "ARI Slick Gallery" with "ARI Sexy Lightbox", show large images in sexy lightbox and navigate between them.

Ok thanks!

When purchasing you mailed the link to download the plugin and make the integration of both? "ARI Gallery Slick" with "ARI Sexy Lightbox"
