hi!

i've created a arislickgallery.ini file that looks like:

```
cathy.jpg="Bread"  
heidi.png="Bread"  
ira.jpg="Bread"  
jackie.jpg="Bread"
```

```
ira.jpg="Bread asdf asdf kiinjil asdfas owej asdfjasd asdfas "  
jackie.jpg="Bread"
```

```
heidi.png="http://www.google.com"
```

i put it in the same folder as the images, but nothing happens.. did i do something wrong?

my image folder is: image/People

the path to description file is: arislickgallery.ini

did i do something wrong?

Hello,

Where we can see a slider?

Regards,
