
image position

Posted by ehermouet - 2012/01/24 09:20

Hi team

little question. is it possible to define that image can't appear over another but just little part. sometime somes image hidde another image, i wan't (if it's possible) to define a max image over another

it's possible ?

tkc

Hello,

The slider works fine with images with the same size (width and height).

Regards,
ARI Soft
