image position Posted by ehermouet - 2012/01/24 09:20
HI team
little question. is it possible to define that image can't appear over another but just little part. sometime somes image hidde another image, i wan't (if it's possible) to define a max image over another
it's possible ?
tks

Hello,
The slider works fine with images with the same size (width and height).
Regards, ARI Soft
