image overlap

Posted by babu1 - 2012/04/05 13:46

_____

Hi team,
I've installed the Slik Gallery on mi site (joomla 2.5) and I've insert it in an article and use the Core Joomla litebox.
So work all ok , but all image are overlap as you can see at http://whiteeventi.net/portfolio.html
I'd like have the images scattered as in your demo http://www.demo2.ari-soft.com/joomla-image-gallery.html.
What I must do about?
Many thanks in advance for your help.

_____

Hello,

The module shows images in random position, currently it doesn't support a parameter to avoid overlapping.

Regards,
ARI Soft
