Gallery in an article Fancybox?
Posted by sapphire - 2012/10/11 16:34
_____

I have just downloaded fancybox. Do I need to install all the extensions to produce a gallery in a joomla article like the one on your demo site? I'm completely lost.

_____

Hello,

If you want to integrate with the extension with "ARI Slick Gallery" module, install "ARI Fancybox" module and install, configure and enable "System - ARI Fancybox" plugin. After this select "ARI Fancybox" in "Lightbox integration" parameter in "ARI Slick Gallery" module settings.

Regards,
ARI Soft

I've managed to do this... but the effect that I want is a gallery page that looks the same as the gallery (cars) on the fancybox demonstration page.

_____

If you want to show thumbnails and generate them automatically for image from specific folder(s) on your server, use "ARI Fancybox" module or "ARI Fancybox Anywhere" plugin. If you use "ARI Fancybox Anywhere" plugin, plugin code will look like:

{arifancybox activeType="imglist" dir="PATH_TO_FOLDERS" thumbWidth="100"}{/arifancybox}

Where PATH_TO_IMAGES is a path to folder with images. For example if you want to show images from /images/albums/album_1/ folder, use the following plugin code:

{arifancybox activeType="imglist" dir="images/albums/album_1" thumbWidth="100"}{/arifancybox}

_____

Provide a link to a page where you use the plugin so we can see what problem do you have.

Regards,
ARI Soft

_____

I have written the code (file attached) and pasted this into my article. Is this right? When I go to the front end there is nothing on the page still. http://www.ari-soft.com/images/fbfiles/files/ari_fancybox_code.txt

_____

Remove symbols in "src" attribute of tag. It will look like:

If you use a WYSIWYG editor, switch it to plain text mode and fix plugin code.

PS: If it doesn't help, could you provide a link to a page where you use the lightbox and a temporary access to your J! backend by email so we can investigate the problem?

_____

I still can't get a gallery to show .... the page I am trying to add the gallery to is gallery1 - portraiture. I have emailed temporary access as instructed.

Many thanks
