## Disabling thumbs rotation?

Posted by potterphx - 2012/10/19 22:38

---

Hi ARI Soft Staff!

First of all...Thank you for this great module! I have one question though...is it possible to make the thumbnails display in ordered rows, and not randomly rotated?

Thanks in advance for any feedback.  
Best Regards

Hello,

The module shows images in random position. If you want to show thumbnails in table view, you can be interested in our lightbox extensions. For example see ARI Sexy Lightbox extension.

Regards,  
ARI Soft
