
Slick Gallery and FancyBox

Posted by blue - 2015/04/19 18:29

Hello, I am trying to enable fancybox functionality on my homepage Slick Gallery and I cannot. Can you please help me. I have installed and enabled ARI Fancybox Anywhere plugin but the images still showing in plain html.

My website is www.eidenai.gr

Thank you.

Hello,

Install "ARI Fancybox" module then install, configure and enable "System - ARI Fancybox" plugin (not "System - ARI Fancybox Anywhere" plugin). If you need more assistance or have any questions, let us know.

Regards,
ARI Soft

Thank you so much, it is working.

You where really helpful.

Can I ask you also something quick. Can I somehow configure the width of the slick gallery with percentage (e.g. 80%)?

Currently it is not possible, but we will do the extension responsive in the next version.
