
How do I use ARI Slick Gallery?

Posted by stesod - 2010/09/13 08:26

Hi!

I want to use Slick Gallery together with my ARI Smart Content: Image Pack and jfancybox but...

After I made configuration in Slick Gallery I don't understand how implement the pictures on the page.
What kind of syntax I should use {arifancythumb} link to pict {/arifancythumb} or what? :blush:

cheers/Stephan

Hello,

'ARI Slick Gallery' doesn't work with 'JFancybox' plugin from 'ARI Smart Content' package. It can be integrated with ARI Fancybox extension.

Regards,
ARI Soft
