Posted by dagh - 2011/07/03 15:09

When I load the page I see this error : Fatal error: Call to undefined method AriUtils::isRemoteResource() in /web/htdocs/xxxxxx/home/modules/mod_aricloudcarousel/mod_aricloudcarousel/kernel/CloudCarousel/class.CloudCarousel.php on line 105

Hello,

Download and upgrade "ARI Orbit Slider" module. It should help.
