Load Delays

Posted by essic - 2011/12/14 14:11

_____

Folks - We're seeing a slight hesitation on load of the first image when entering the site: The is different behavior from say Ari Image Slider, which does not exhibit this delay. Is there anyway to prevent this delay from occurring? Our site logo is the first image in our show and not having that image immediately visible on site entry is a problem for us. Thx.

_____

Hello,

Download and upgrade the module. After this clean browser's cache. It should help.

Regards,
ARI Soft
