Turn-off image mouse-overs that re-display caption
Posted by essic - 2012/03/04 14:39

_____

Folks - We're finding there to be too much clutter and a certain redundancy to having slide captions also present themselves in
a pop-up window on image mouse-over: Can we turn that pop-up off?

Thx as always! http://www.ari-soft.com/images/fbfiles/images/mouse_over_pu.png

_____

Hello,

Download and upgrade the module. After this clean browser's cache. It should help.

Regards,
ARI Soft
