Show Arrows Always
Posted by inspry - 2012/03/29 04:04

_____

Hi there,

I am sorry to have to come to you guys, but for the life of me, I cannot figure out how to change the mod's css to show the arrows always for the pageflipper, not just on mouse hover. Can you help me out?

Thanks a bunch!

_____

Hello,

Could you provide a link to a page where we can see a flip book?

Regards,
ARI Soft

_____

Add the next CSS rule to "CSS Styles" parameter in module settings or to a site template CSS file:

.b-arrow DIV
{
 opacity: 1 !important;
}

_____

Hello - I have the same problem. I have set the arrows to yes, in the module and I have ARI Flip Book 1.7.4.
I have added the css to my file http://blackmountainsbarns.co.uk/templates/sed_bs3-j3/css/template.css

You can see the flip book at http://blackmountainsbarns.co.uk/see-the-big-barn.

In the code I can see
(window || jQuery)(document).ready(function($){ ariFlipBookInit($, "#flipbook_119",
{"width":"1000","height":450,"pagePadding":0,"tabs":true,"tabWidth":120,"arrows":true}); });

but I cannot see anything with a class of 'b-arrow'.

I have tried with 'include jQuery' yes & no and jQuery noConflict yes & no.

Thanks
Sarah

_____

Hello,

Could you send screenshot(s) of module settings by email?

Regards,
ARI Soft
