## How to change page order

I would like to change the order of pages that have been created in Flip Book.  
For example create the front cover after the various articles have already been created, or insert a page.  
Changing the ORDER in the Article Manager has no effect.  
Any assistance would be appreciated.  
Thanks

Hello,

Could you send screenshot(s) of module settings page by email?

:blush:

Ha! Your request to send you screenshots of the module settings page was enough!

Many thanks for the quick response!
