Can\'t Select article Category

I've got a long article I want to display so I'm splitting it into page length sub articles and sticking them together in a category for the flipbook. My Problem is that if I select the category on the flipbook articles listbox and save the selection doesn't save and the flipbook continues showing all articles. :(

Hello,

Check that "System - ARI Extensions" plugin is installed and enabled.

Could you provide a temporary access to your J! backend by email so we can investigate the problem?
