
translation tooltip

Posted by nogent - 2012/11/26 21:12

How to modify the language of the tooltip?

I would wish to pass in French

Thank you http://www.ari-soft.com/images/fbfiles/images/ari_flipbook.jpg

Hello,

Download and upgrade the module, after this clean browser's cache and use "Previous button" and "Next button" parameters in module settings to define text for prev and next buttons.

Regards,
ARI Soft

Hello,

Once again, I appreciate your reactivity and thank you for it.

I downloaded the version 1.5.1 and all is perfected.

Cordially.
