
ARI Flip Cannot get to work; as several others

Posted by greggtaylor - 2013/01/02 05:16

Article embedded in <http://fhr3.fullhr.com>
under benefits

ACTIVE and Installed in Components and Configured in Plugin

Articles

Specify articles selection parameter and change 'Template' parameter if it's necessary. You can use the following predefined variables in 'Template' parameter:

```
{ $id } article id;  
{ $title } article title;  
{ $introtext } article intro text;  
{ $fulltext } article full text;  
{ $created } article created date;  
{ $modified } article modified date;  
{ $hits } article hits;  
{ $readmore_link } link to article page.
```

\Like many do not want the program just need to flip pages on the PDF document

Some filters can be applied to variables. For applying filter(s) use the following syntax:

```
{ $variable|filter:filter_param1:filter_param2 }
```

Save the Cryptic indrtuptions on Module New Art

Hello,

"ARI Flip Book" shows Joomla! articles into flip book view. It doesn't convert PDF documents to flip book.

Regards,
ARI Soft
