
ARI Flip - Out of Memory Error

Posted by daveszyari - 2013/03/23 03:01

Fatal error: Allowed memory size of 134217728 bytes exhausted (tried to allocate 174848 bytes) in /home/pennwrit/public_html/dev2/joomla-2.5/libraries/joomla/document/document.php on line 488

I get this message when I click on my flip book link. At first, I did get a book, but not with the pages I wanted.

Hello,

Do you load the module into a module position or into an article? If you load it into article check that ID of article with "ARI Flip Book" is entered in "Excluded articles" parameter in module settings.

If it doesn't help, could you provide a link to a page where we can see the problem and a temporary access to your J! backend by email so we can investigate the problem?

Regards,
ARI Soft

Thanks, administrator

Your suggestions worked. And you answered quickly. That is really appreciated.

Thanks again,

Dave
