
Cannot get flip book working

Posted by andy@exstat.co.uk - 2014/01/26 16:45

Just purchased flip book and it will not work.

Assign all articles in a specified category and it just covers all of the page.

<http://exstatbuild1.info/index.php/school-information/prospectus>

Also, being a bit of a newbie do not understand the adding into an article as in where does the code go and does it need to be have code either side

=====

Hello,

Open "ARI Image Slider" module settings and set "Load jQuery method" parameter to "Local copy" value.

Regards,
ARI Soft
