
link to another page within the flip book

Posted by caffgx - 2014/03/31 10:25

Hello,

Whilst you can link to other URLs from the flip book, is it possible to link to another page within the flip book itself?

Many Thanks

=====

Hello,

Set "Use hash links" parameter to "Yes" in module settings and use the following link to navigate to page #3:

[#/page/3](#)

Regards,
ARI Soft
