
Flip Book missing admin template on J!3.3.1 .. ?

Posted by lbridle - 2014/07/26 00:24

I just installed flip book, module and plugin, on a J!3.3.1 and when I edit the module I get all module paramters without the admin template.. see img attached. Thus also can't SAVE, etc.

Also see the followoing error message at bottom of the module edit scree:

"Fatal error: Cannot redeclare class JFormFieldColor in /home//public_html//libraries/joomla/form/fields/color.php on line 264 "

Any ideas how to fix?

Thanks. Larry

Hello,

Download the extension again and update the module please.

Regards,
ARI Soft
