
Ose Memberhip Access Control

Posted by pavit66 - 2014/10/03 07:38

Hi

I'm interested to your extension , first to purchase it i'd like to know if i can manage access control over created flip books, my website is showing Joomla articles and the access to this articles is reserved to users paying a subscription through OSE Membership , so categories where articles are published are restricted for free users , i'm interested to show my articles to paid memberships using your extension, is this possible ?

Thanks

=====

Hello,

It is possible to load "ARI Flip Book" module instances into articles and use restriction from "OSE Membership" for articles with books.

Regards,
ARI Soft
