## Flip book blank

Posted by Rav3 - 2014/11/04 15:13

---

Trying to specify the files for the images and they are blank Ive tried listing the directory all ways

/images/pdf1/  
images/pdf1/  
/images/pdf1  
images/pdf1

Any help with the correct file paths would be great its not working as a module or with the short codes in an article Ive attached it as a menu item also any help would be great

Also should the CVS be on the server already? as its not on mine anywhere

Hello,

If images are located in /images/pdf1 folder then use images/pdf1 value for "Image path" parameter.

If the problem still appears, could you provide a link to a page where you try to use the extension and provide a temporary access to your J! backend by email so we can investigate it?
