Hello,

Do you want to embed a flip book into K2 item or show K2 items into a flip book?

Regards,  
ARI Soft

I have installed and did as you said

<http://prntscr.com/ct3giu>

but it is hanging my site

<http://internetresearchspecialists.net/index.php/blog/variation-2/102-when-history-meets-fashion-photography>

Please fix it i can give you credentials

---

Add ID of the article where the module is inserted to "Source type -> Articles -> Excluded articles" parameter in module settings.

---

Populate "Width" parameter in module settings with value in percent. For example 80%, the module will calculate absolute width on page load.

If you need a fully responsive flip book extension (with fullscreen support, ability to create books from PDF files and other features), you can be interested in ARI Smart Book extension.

Regards,  
ARI Soft
