## ARI Docs and menu issue

Posted by jbrown101 - 2014/08/29 12:38

---

When I am logged into my site the menu drop downs work fine but if I am not logged in the menu drop downs do not work when ARI Docs are enabled. Very strange. Running on Joomla 3.3

Hello,

Send a link to a page where we can see the problem.

Regards,  
ARI Soft

Here is the development site:

Please navigate to a news article and you will see that when on a page that is using the ARI Docs plugin the dropdown menus do not respond.

News & Articls > News > Select article

Thanks

---

Set "Include jQuery" parameter to "No" in plugin settings.
