## Not working in Joomla 3.36

Posted by larry - 2014/10/30 10:24

---

Not working in Joomla 3.36 on .pptx files. Says it cannot find file when file is exactly where the code says it is.

Hello,

Where we can see the problem?

Regards,

<http://www.woodiewheaton.org>

I actually have a couple PDF that are not working too <http://www.woodiewheaton.org/speaker-series-field-trips/2014-summer-speaker-series> while others work fine <http://www.woodiewheaton.org/news-1/annual-meeting-2014>

We sent the answer by email about problem with .pptx file. About PDF, if you see "You've reached the bandwidth limit for viewing or downloading files that aren't in Google Docs format. Please try again later." message then Google temporary block access to Google Docs API for the file because of bandwidth limit is exhausted.
