
YouTube Embeds

Posted by sundenj - 2016/05/27 16:19

Hi, I embedded a few YouTube videos in our PowerPoint presentation that don't seem to want to work when viewing the Powerpoint on the website. What do I need to do to have the videos play?

Hello,

PowerPoint files are embed with help of Google Docs viewer and it seems this service doesn't support YouTube videos in presentations.
