## change the size nd the color of the border of the

Posted by jeanluc.ferre - 2017/02/23 11:35

---

Hello

How can i change the size and the color of the grey border of the viewer...

What css code had i to use?

I inspected the element with firebug but i didnt find.

Thank you in advance for your answer

Hello,

What viewer do you use? It is possible to see it on your site?

Regards,

ARI Soft

Hello

Thank you for your answer

its about the ARI Doc Viewer

I can't give you a link of my page because for the moment i am on a local server of test...

If you want later i could send you a capture of my page...

Thank you for all

i hope you can help me.

The extension supports several viewers: MS Office, Google Docs, Iframe, PDFJS. Each of them has own styles and not all them can be changed (MS Office and Google Docs use online services).

Hello

Thank you for your contribution

I program my aridoc viewer with the google doc viewer....

I let you a photo of my page...

I just succeeded to add a red border using css, but that's the grey border beside that i want to erase...

i am going to do tries with other viewers office or pdf to see if there is always the same problem.....

i am waiting your answer in order to see if there is a solution..

Thank you

Hello

First i don't succeed to send you the whole imge...so now i am going to try to send only a part of this image with the aridoc view...

Thank you [http://www.ari-soft.com/images/fbfiles/images/ma\\_page\\_aridoc\\_1.jpg](http://www.ari-soft.com/images/fbfiles/images/ma_page_aridoc_1.jpg)

Hello,

for the file that i want to show the only viewer that works is the "google doc viewer" the others doesn't work.

I forgot to indicate you that it's a PDF file and which is located on another site. that i want to show.

Here is the command line that is generated for the insertion :

```
{aridoc engine="google" width="100%" height="850"}http://serve-  
loisirs.fr/public/lib/exe/fetch.php?media=les_statuts_signes.pdf{/aridoc}
```

I hope you understood the image that i have sent you and that you have noticed the grey border that i would like to suppress.

Thank you for your contribution and your answers.

I hope there is a solution for that question.

This border is generated by Google Docs viewer, it is not possible to change it because these styles are generated on Google Docs side.

Hello

Thank you for your answer...

Is it possible to show a PDF file that is on another site using PDFjs.???

When using this late viewer i have an error with my local server of test.

i hoped that with another viewer i wouldn't have such a border.

Thank you

It is not possible to show PDF files from another domain with PDFJS viewer due to security policy.
