
Office Online View only capability ?

Posted by Pousse mousse - 2017/10/22 14:11

Hello,
I would like to know if there is any possibility to have a "Only view" behaviour of the Office Engine when using it through ARI DOC Viewer ?
Problem is that I don't want to share my Excel file, I only want to allow its view from my website.

Office Online always proposes to perform a local save, and I don't want it.

Thank you for your job, and any help would be greatly appreciated (use of other engine or other free extension...).

Hello,

MS Office Viewer doesn't support this ability.

That's a pity, but thank you for your feedback, do you think there is any other possibility to perform such a thing?

It is not possible for MS Office Viewer because it is a 3rd party service and it doesn't provide API to change this behavior.
